

IN THE SPECIFICATION

Please replace the paragraph beginning at page 3, line 9, with the following rewritten paragraph:

The invention includes a schema. The schema defines the acceptable structure for a document, and can also define the valid type and data values that a value can take on. ~~on-~~ The schema identifies a field that can be used as a key. The key can be identified as a property of a tag including the field, or can be identified by an attribute.
